

THANK YOU FOR YOUR SUPPORT THROUGHOUT THE YEAR OF 2006!

To our clients,

On behalf of Coast Reproductive, I would like to thank you for making us an integral part of your life and practice this past year. Your support of Coast Reproductive is extremely important and we greatly appreciate your business.

In 2006 we marked the successful introduction of the *Coast Reproductive Male Fertility Supplement (MFS)*, the successor to *Fertile One™*, as well as two new products for pregnancy/prenatal support, *PREN* and *You're Expecting*. In addition, we made critical improvements to our customer service and support. Based upon the feedback, this has made working with Coast Reproductive much more efficient for referring practices and patients, alike.

Coast Reproductive is anticipating a number of exciting developments in 2007. The first, scheduled for January, is the introduction of an important and unique new product to improve the symptoms of chronic prostatitis, *Prostatitis Relief*. Formulated specifically for those suffering from chronic prostatitis/chronic pelvic pain syndrome (CP/CPPS), *Prostatitis Relief* includes the following key, scientifically proven components: Quercetin, Relora® and Lycopene, all selected for their ability to relieve the symptoms of CP/CPPS and enhance overall prostate health.

As a leading nutritional science company, dedicated to "better health through science", Coast Reproductive is committed to providing you and your patients with unique formulations manufactured to the highest industry standards.

I wish you the happiest of holidays and look forward to a continued valued relationship with you, your staff and your patients for the coming year and many years to come.

Thank you,

A handwritten signature in black ink, appearing to read "Bruce J. Thomsen", with a stylized flourish at the end.
